When there’s a job to do, the pros turn to Sakrete to get it done right.

Since our founding in 1936 as North America’s first bagged concrete mix, the Sakrete brand has grown and diversified to become a leader in concrete construction and repair products.

From our signature High-Strength Concrete to specialty mixes like 5000 Plus Concrete, repair mixes like Fast-Setting Cement Patcher and resurfacing mixes like Flo-Coat, Sakrete products are built on a commitment to quality, performance and superior support. That’s our promise for the thousands of dealers and concrete pros who rely on our products every day.

Rip open a bag and find out why we’ve been the trusted choice in concrete for over 80 years.
### High-Strength Concrete Mix

- For applications requiring at least 2" in thickness
- Just add water
- Exceeds compressive strength requirements of ASTM C-387

<table>

<td>56 bags/pallet</td>
</tr>
</tbody>
</table>

**Use For:** Walks, footings, slabs, steps, anchoring posts and poles

**Use With:** Cement Colors, Cure’n Seal, Farm Tubes

### Fast Setting Concrete Mix

- Sets in just 30 minutes
- Sets posts without bracing or mixing. Also, slabs requiring fast set
- Exceeds compressive strength requirements of ASTM C-387

<table>
<thead>
<tr>
<th>Size</th>
<th>UPC</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>50 lb.</td>
<td>7-64661-11150-4</td>

</tr>
</tbody>
</table>

**Use For:** Setting posts or poles without bracing or mixing. Also for slabs requiring fast-set

**Use With:** Cement Colors, Cure’n Seal, Farm Tubes

### Maximizer Concrete Mix

- High yield providing more coverage than regular concrete
- 5500 psi
- Less bags to haul and easier to mix
- Exceeds compressive strength requirements of ASTM C-387

<table>
<thead>
<tr>
<th>Size</th>
<th>UPC</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>40 lb.</td>
<td>7-64661-00016-7</td>

<td>35 bags/pallet</td>
</tr>
</tbody>
</table>

**Use For:** Walks, footings, slabs, steps and balconies

**Use With:** Cement Colors, Cure’n Seal, Farm Tubes

### Pro-X180 Concrete Mix

- Full depth use, 1 1/2" (38mm) or greater
- For high early and high overall compressive strength
- Corrosion-inhibited, air-entrained mix
- 3 hours >2,500 psi; 28 days >8,000 psi

<table>
<thead>
<tr>
<th>Size</th>
<th>UPC</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>80 lb.</td>
<td>7-42786-91340-1</td>
<td>42 bags/pallet</td>
</tr>
</tbody>
</table>

**Use For:** Small structural concrete applications

**Use With:** Cement Colors, Cement Mix Accelerator, Cure’n Seal, Farm Tubes

### Crack Resistant Concrete Mix

- For applications requiring at least 2" in thickness
- Contains fibers for reduced cracking
- Exceeds compressive strength requirements of ASTM C-387

**Use For:** Walks, slabs, steps & footings

**Use With:** Cement Colors, Cement Mix Accelerator, Cure’n Seal, Farm Tubes

### 5000 Plus Concrete Mix

- High early strength 5000 psi for commercial structural applications and superior durability
- For slabs requiring at least 2" in thickness
- Ideal for concrete countertops (can be used down to 1 1/2" thick)
- Exceeds compressive strength requirements of ASTM C-387

<table>
<thead>
<tr>
<th>Size</th>

<td>7-64661-10380-6</td>
<td>42 bags/pallet</td>
</tr>
</tbody>
</table>

**Use For:** Walks, footings, slabs and steps

**Use With:** Cement Colors, Cement Mix Accelerator, Cure’n Seal, Farm Tubes

### Sand Mix (Topping & Bedding Mix)

- Repairing and topping damaged concrete surfaces in layers 1/2" to 2" thick
- Professional strength 5000 psi

**Use For:** A bedding mix for flagstone, slate and brick walkways or shower mortar beds

**Use With:** Concrete Bonder & Fortifier

### Floor Mud*

- Can be dry-packed or used as a thick mortar bed
- Ideal for shower pan installations

**Use For:** Thick setting beds under ceramic or quarry tiles, shower receptors, roof decks, decks & stairs

*Sold as Deck Mud in some markets

**Use For:** Thick setting beds under ceramic or quarry tiles, shower receptors, roof decks, decks & stairs

**Use With:** Cement Colors, Cement Mix Accelerator, Cure’n Seal, Farm Tubes

### Product Availability and Pallet Quantities

Product availability and pallet quantities may vary by region.
MORTAR, STUCCO & MASONRY MIXES

TYPE-S MORTAR MIX
• A high strength mortar mix for laying brick, block and stone
• Can be used as a stucco scratch and brown coat
• White is available in Florida
• Packaged as “Mortar/Stucco Mix” in Florida

USE FOR:
Load-bearing walls & construction above & below grade; laying brick, block & stone; stucco applications

USE WITH:
Cement Colors

SIZE UPC # QUANTITY
80 lb. bag-gray 7-64661-13080-2 42 bags/pallet
60 lb. bag-gray 7-64661-13160-1 56 bags/pallet
40 lb. bag-gray 7-64661-13240-0 80 bags/pallet
30 lb. bag-white 7-64661-13940-9 80 bags/pallet
10 lb. pail 7-64661-13540-1 10 pails/pallet

TYPE-N MORTAR MIX
• A regular strength mortar mix for laying brick, block and stone

USE FOR:
Laying brick, block, or stone in above grade walls; making repairs to mortar joints

USE WITH:
Cement Colors

SIZE UPC # QUANTITY
80 lb. bag 7-64661-13380-3 42 bags/pallet
60 lb. bag 7-64661-13460-2 56 bags/pallet
40 lb. bag 7-64661-13540-1 80 bags/pallet

STONE VENEER MORTAR
• Polymer modified for high-performance adhesion of mortar and artificial stones to substrate
• Consistent quality from bag to bag means less waste and problems associated with on-site mixing

USE FOR:
Setting and grouting artificial stone

USE WITH:
Cement Colors

SIZE UPC # QUANTITY
80 lb. bag 7-64661-18506-8 56 bags/pallet
50 lb. bag 7-64661-18506-9 56 bags/pallet

SURFACE BONDING CEMENT
• Fiber reinforced to reduce cracking
• Available in white and gray

USE FOR:
Building mortars for brick walls and reinforcing existing masonry walls

USE WITH:
Cement Colors

SIZE UPC # QUANTITY
10 lb. bag-white 7-64661-13750-4 18 bags/pallet
10 lb. bag-gray 7-64661-13850-1 18 bags/pallet

CEMENTS

PORTLAND CEMENT TYPE I-II
• For use in custom concrete mixes and portland/lime mortars (Type II/IV Portland Cement is available in the western U.S.)

USE FOR:
Custom blended concrete mixes

USE WITH:
Multi-Purpose Sand, All-Purpose Gravel or Pea Gravel

SIZE UPC # QUANTITY
47 lb. bag 0-88946-00256-2 64 bags/pallet
70 lb. bag 0-88946-00140-4 35 bags/pallet

MASONRY CEMENT
• Masonry cement for use in custom mortar and stucco mixes
• Available in Type-N and Type-S

USE FOR:
Custom mortar and stucco mixes

USE WITH:
Masonry sand

SIZE UPC # QUANTITY
70 lb. bag-Type N 0-88946-00141-1 56 bags/pallet
75 lb. bag 7-64661-90025-2 45 bags/pallet
78 lb. bag-Type S 0-88946-00257-9 42 bags/pallet

CONCRETE AND MASONRY REPAIR

TOP’N BOND® CONCRETE PATCHER
• Long-lasting repairs to steps, slabs, walks and most concrete surfaces
• Fortified with polymers for superior bonding strength

USE FOR:
Resurfacing and patching of worn, uneven or chipped concrete surfaces

USE WITH:
Multi-Purpose Sand, All-Purpose Gravel or Pea Gravel

SIZE UPC # QUANTITY
40 lb. bag-gray 0-50605-00144-5 36 bags/pallet
40 lb. bag-white 7-64661-16740-2 36 bags/pallet
20 lb. pail-gray 7-64661-15120-3 Each
10 lb. pail-gray 0-50605-00143-8 4 pails/case

FLO-COAT® CONCRETE RESURFACER
• Makes old, worn concrete look like new
• Flowable for easy application with lightweight squeegee
• Fortified with polymers for superior bonding strength

USE FOR:
Resurfacing worn, spalled or chipped concrete surfaces

USE WITH:
Masonry sand

SIZE UPC # QUANTITY
20 lb. pail 7-64661-50007-0 Each
40 lb. bag 7-64661-17440-0 36 bags/pallet

Product availability and pallet quantities may vary by region.
**FAST SETTING CEMENT PATCHER**

- Rapid setting patching material that can be molded or sculpted into place
- A fast setting patch material for concrete repairs from 1/4” to 2”

**USE FOR:**
- Rapid repair of concrete steps, slabs, walks, drives and patios

**USE WITH:**
- Concrete Bonder & Fortifier

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
40 lb. bag | 7-64661-17040-2 | 36 bags/pallet
10 lb. pail | 7-64661-17510-2 | Each
1 lb. pail | 7-64661-17101-2 | 4 pails/case

---

**LEAK STOPPER HYDRAULIC CEMENT**

- Rapid setting hydraulic cement - stops leaks underwater
- Available in white and gray

**USE FOR:**
- Instant repair and leak stoppage in pools or other active leaks in concrete and masonry

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
50 lb. pail-gray | 7-64661-17550-6 | 36 pails/case
20 lb. pail-gray | 7-64661-17620-6 | Each
10 lb. pail-gray | 7-64661-17610-7 | 4 pails/case
10 lb. pail-white | 7-64661-17710-4 | 4 pails/case

---

**FAST SETTING SELF-LEVELING RESURFACER**

- Applications from a feather edge and up to 1 inch in thickness
- ASTM C109 = 7,000 psi (28-day compressive strength)
- Can be used as an underlayment or wear surface
- Sets in less than 90 minutes, walk-on in 4 hours

**USE FOR:**
- Resurfacing interior or exterior concrete slabs

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
50 lb. bag | 7-42786-91342-5 | 56 bags/pallet

---

**EZY-PIPE PATCH**

- Vertical, horizontal and overhead repairs
- Sets in 15 minutes
- High early strength

**USE FOR:**
- Filling pipe and box culvert joints, patching cracks and chips in any concrete surface

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
50 lb. bag | 7-42786-91350-0 | 56 bags/pallet

---

**TROWEL GRADE LEVELER & UNDERLAYMENT**

- Use over concrete, cementitious backer board, exterior grade plywood, embossed vinyl tile with Bonder and Fortifier
- Use under asphalt tile, vinyl flooring, carpet, wood flooring, especially around doors
- Fast setting
- Can be feather edge applied

**USE FOR:**
- Leveling interior floors

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
25 lb. bag | 7-64661-10525-1 | 36 bags/pallet

---

**SELF LEVELING UNDERLAYMENT**

- Portland cement based
- Provides a smooth surface
- Applications up to 1” (25 mm) in a single pour
- Rapid curing – Accepts non-moisture sensitive tile and stone in 24 hours
- Accepts floor covering sheet goods in 3 days

**USE FOR:**
- Leveling interior floors

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
50 lb. bag | 7-64661-10525-1 | 36 bags/pallet

---

**CONCRETE CRACK FILLER**

- Ready to use, no mixing required
- Fill and seal cracks in concrete up to 1/2” wide and 1/4” deep
- Flexible and durable material

**USE FOR:**
- Filling and sealing cracks to prevent intrusion of water

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
1 pt. bottle | 7-64661-10503-1 | 36 bottles/pallet

---

**REPAIR MORTAR**

- Easy to mix. Simply add water, resell and knead the mix in the bag
- Convenient for small patches, requiring no other tools. Just add water

**USE FOR:**
- Repairing small cracks or patches in concrete or mortar.

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
3 lb. pouch | 7-64661-50053-7 | 12 pouches/case

---

**POLYURETHANE NON-SAG SEALANT**

- A one component sealant which forms a flexible joint with excellent adhesion
- Specially designed for vertical or overhead surfaces
- Non-sag formula

**USE FOR:**
- Repair cracks or fill joints in horizontal or vertical concrete surfaces

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
17.1 oz. tube | 7-64661-50036-1 | 12 tubes/case

---

**POLYURETHANE SELF-LEVELING SEALANT**

- A sealant which forms a flexible joint with excellent adhesion
- Self leveling

**USE FOR:**
- Repair cracks or fill joints in horizontal concrete surfaces

**SIZE** | **UPC #** | **QUANTITY**
--- | --- | ---
17.1 oz. tube | 7-64661-50037-7 | 12 tubes/case
**PRE-MIXED CONCRETE PATCH**
- Ready to use
- Easy to apply
- Offers superior adhesion

**USE FOR:** Vertical and horizontal repairs in concrete and masonry surfaces

<table>

**PRECISION NON-SHRINK GROUT**
- Meets ASTM C1107 at plastic, fluid and flowable consistency
- Non-metallic, non-staining
- Pumpable for easy placement

**USE FOR:** Setting machinery or base plates where shrinkage is not acceptable. Filling voids under slabs or any area where access is limited and a fluid material is needed.

<table>

Sakrete makes challenging concrete repairs easy by collecting our leading repair products into a single display. From Crack Filler to Fast Setting Cement Patcher, the Sakrete Repair Bay gets you back in action with the right products for the job.
Enter your location in our Where to Buy page to find retailers near you that carry our Sakrete products.

Do you have an upcoming project and need step-by-step directions on how to get it done? Visit our How-to-Video page to find the project you are looking for.

The Sakrete App is the best way to estimate concrete projects. Using the augmented reality technology on your smartphone, you’re just a tap away from faster, more accurate calculations for your most complex projects.

FREE DOWNLOAD:

Q. How long does it take for most CONCRETE AND MORTARS to completely cure?
A. 28 days.

Q. Can I use HIGH-STRENGTH CONCRETE MIX for setting a fence post without mixing prior to placement?
A. No, only the FAST SETTING CONCRETE MIX or NO MIX FENCE POST MIX should be used in that application.

Q. What is the minimum temperature for pouring or using CEMENTITIOUS PRODUCTS?
A. Air, mix and substrate temperatures should be between 40-90°F during and for 24 hours after application.

Q. What is the minimum width and depth required for using POLYMERIC SAND?
A. Minimum joint width is ¼” and the full depth of the paver is the minimum depth.

Q. Can I use POLYMERIC SAND with Flagstone?
A. No, Flagstone is typically unstable. The joints would not be uniform and are likely to have areas larger than our maximum 1½” joint width.

Q. Can I paint MORTAR REPAIR/CONCRETE CRACK FILLER? If so how long do I need to wait after applying?
A. Yes, with a latex based paint. 7 days.

Q. Can I paint the POLYURETHANE CAULKING? If so how long do I need to wait after applying?
A. Yes, with a latex based paint but only on vertical surfaces. 7 days.

Q. Can I use TYPE S MORTAR for installing a custom shower pan?
A. No, our TYPE S MORTAR is not meant for mortar beds or custom shower pan installations. We recommend using FLOOR MUD or SAND MIX in this application.

Q. Can I use CONCRETE MORTAR DISSOLVER to remove tile thinset or grout from shower tiles or brick?
A. No, the product could leave etching on the tile/brick face.

Q. Can any SAKRETE REPAIR PRODUCTS be applied over paint?
A. No, cementitious materials will not adhere to painted surfaces.

• Always add specified amount of water in your mixing container first and then add the bagged product during the mixing process.

• Cover repairs/pours with plastic to retain moisture to aid in the curing process. This is especially helpful in the summer months.

• Proper surface preparation is just as critical as choosing the right product.
